

GAINA RESIDENTIAL

High Performance Water-Based Thermal Ceramic Paint

OUR SOLUTION-YOUR HOME!

Whether you're looking to cool down your home, protect your roof and walls, or create a more comfortable and energy-efficient living space, GAINA Residential delivers reliable, high-performance results.

Its advanced ceramic technology reflects up to 95% of solar radiation, reducing heat build-up, cutting energy bills, and keeping indoor temperatures stable year-round.

Easy to apply on roofs, ceilings, and interior or exterior walls, GAINA Residential also offers soundproofing, odour neutralization and moisture resistance, making it the ideal choice for homeowners who value comfort, savings, and sustainable living without compromising on aesthetics or structure.

WHY CHOOSE GAINA RESIDENTIAL

Our residential thermal ceramic paint is a water-based formula that contains zero organic solvents or hazardous substances, making it safe for both indoor and outdoor use.

Engineered specifically for interior environments, it carries the F☆☆☆☆ rating - the industry's highest mark for low emissions, after rigorous testing for aldehydes and volatile organic compounds (VOCs). The result is a premium, high-performance paint, that not only protects and enhances, but also promotes a healthier, safer living space.

APPLICATIONS

Interior Walls

Ceilings

Exterior Walls

Roof

25 Year Manufacturer's Warrantee
